UPWARD PRICES TAKE THEIR WAY

Some Setbacks in Wall Street, but the Delay Was Only · Temporary.

ORDERS FROM THE OUTSIDE

COPPER ADVANCING AND THE OUTLOOK GOOD.

New York, Aug. 10 .- The tone of the stock market was nervous and irregular at times today, but the sweep of the breadened demand was sufficient to dominate the upward course of prices in spite of some setbacks and some obstacles opposed. Within an hour after the opening there was a break in prices that ap-proached in violence that of last Friday. The same stocks, American Smelting and National Lead, were conspicuous features of the break, which was supposed to be due to a phase of a sensational advertising campaign to attract speculative interest in the market now being waged by a Boston speculator. The fervor of the appeals offered to the reading public to come into the market and make their fortunes a timely manner for heavy unloading on

The heavy selling was otherwise attributed to the account of professional oper-ators who timed it with the morning's advertisements from Boston on the the-ory that previous similar outbreaks had marked the culmination of a rising movement in prices. There was a noticeable increase in buying orders from outside sources to commission houses through the mail and by wire. The volume of these miscellaneous orders was larger than on any Monday morning since the rise set in. The market was rendered rather feverish

Many of the orders being for execution "at the market" without specifying a fixed price, professional traders are quick to detect such a state of affairs and will bid up prices boldly to get the benefit of these unlimited orders. The day was notable for the number of usually mant stocks which were awakened into cent. activity. The movements were heralded in more than one case by widespread tips ier; sixty days, 2 per cent; ninety days, 25 circulated throughout the financial district. The tips were sometimes the only Prime mercantile paper, 31/264 per cent. apparent cause for a rise in prices. The immediate news of the day was not of much influence.

news of the crops was reassuring and indicated that such damage as was being suffered by the corn and spring wheat from drought and heat was being limited and checked short of the actual disaster which was depicted in some of last week's excited rumors. Copper advanced again here and in Londo many and Australia secured the London many and Austrana secured the London supply of gold this week, Paris having withdrawn with its requirements satisfied. The production of gold on the Rand for July was officially reported at 585,455 fine ounces, valued at \$14,413,300, and constituting a record production for the re-This broad stream of replenishment of the world's supply of money metal is one item of many making for the present lowering rates and rising prices for se-curities. The highest prices of the present movement were made during the course of the day and advances were well sustained at the closing. Bonds were firm.

Total sales, par value, \$4,590,000.

U. S. bonds were unchanged on call.

well? Certainly it is. If you were going to pay out money for something else, you wouldn't do it unless you knew how much you had to pay, and what you were going to get for it. This is the way I run my business—on a strictly business basis. You're every bit as wise as I am when you commence treatment with me. I examine you and tell you all about your trouble, and it doesn't cost you a cent. Then I tell you how I'll cure you, how long it will take and just what it will cost. I was the first expert physician who offered my services for \$5.00. Others since have come out with ads, imitating my methods, but when you called on them you were asked unreasonable fees. If you will stop and think, you will come to me and
